

SERLACHIUS

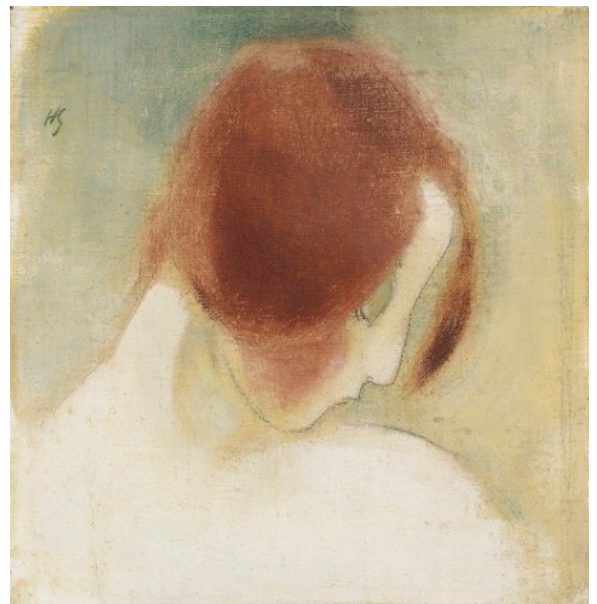

SERLACHIUS offers high-quality culture, nature and culinary experiences in the midst of beautiful Finnish Lakeland in the Art Town Mänttä. Our products include e.g. art and architectural tours, light nature activities, culinary delights, guided walking tours, drama guidances and art workshops around the year.

Lakeland tours: Serlachius also helps you to package other interesting sites and tours in the Southern part of Finland, for example Alvar Aalto -architecture, Moomins, Finnish design, Unesco heritage sites, berry picking, fishing, rally driving and sauna experiences.

Accommodation alternatives vary from Nordic luxury for very demanding customers to cottages for more nature oriented travellers.

The story of Serlachius goes 150 years back at the beginning of Finnish forest industry and its legendary paper magnates, the Serlachiuses, who created a community from nothing - an intriguing story of the Finnish welfare. Nowadays Serlachius' art collection is one of the most important private art collections in the Nordic countries, consisting of over 13 000 works.

The combination of two awarded Serlachius Museums and Restaurant Gösta, surrounded by beautiful natural milieu, indulges all your senses with interesting art exhibitions, magnificent architecture, excellent cuisine and activities in the middle of lakeside landscape. No wonder that Serlachius was ranked as the second in Lonely Planet's list of top sights in Finland in 2017.
